

"She name is Ms. **Anna Klups** and 23 years old

and hail from the Poland. She've been away from the Poland for half year, spending most of that time in Portugal. She graduated electrical engineering of bachelor's degree. She's member student of organization IAESTE. In 2017 She has the opportunity to travel internships abroad.

Currently she lives in Bangkok. She arrived here a month ago. By the way she decided to come to Bangkok 1 year ago. So that She can learn something new. Be it cultural, living, social and many other things. At this time, She's working on Rajamangala University. She is able to learn a wide range of work experience that is more conducive to her country. My workmates are really polite and nice, always helpful. Rajamangala University seems modern, peace and amazing place to develop student's skills. She is here until December. She is very happy to live and work in various places. And in her mind, what she likes best when she comes to Thailand is Thai food. It was a little spice, but she loved it. This was the

overall experience she learned to come here for her. She thought she would do it. She has the opportunity and she will enjoy it. Finally, she is very happy to learn here and will be a memory she will never forget.
